

Climate Change Discussion

Put a price on carbon.

Carbon Pricing

What is the status of carbon pricing in the United States?

Carbon pricing promotes innovation to reward effective methods to reduce greenhouse gas emissions. Revenue neutral options return fees to the people. Bills before Congress include the **Healthy Climate and Family Security Act** and the bipartisan **Energy Innovation and Carbon Dividend Act**. Please join us to discuss these bills and how carbon pricing can address global warming.

Thursday, May 16, 7 - 9 PM
