

# Students Reclaim Our Future

## Annapolis

### February 18, 1:30 – 2:00 PM

### Outside House of Delegates

Students from around our state are gathering at the Maryland State House to call for bold action to protect our future and our climate. High school activist Kallan Benson will attend – she has been conducting a silent strike to alert state leaders that youth demand action now.

Please come to Annapolis to join her and the Chesapeake Climate Action Network, Interfaith Power & Light, Maryland Environmental Health Network, Maryland League of Conservation Voters and the Mom's Clean Air Force as we work to enhance the lives of our children.

Now is the time to pass a **Healthy Green Amendment** to guarantee a healthy environment as a constitutional right and the **Clean Energy Jobs Act** to ensure a clean and renewable energy future and help create sustainable jobs in our state.
